Simulation program

Download

This is source codes of my system, AGEDASI TOF. AGEDASI TOF is an artificial market model of a foreign exchange market. Please read my papers to get more detailed description about the model.

This code is written in Pascal. P2C is necessary for compilation.

Install

   1. type "make".

or

   1. p2c -LTURBO agedasi.pas
   2. gcc agedasi.c -lm -lp2c -o agedasi

Run

   1. type "./agedasi". Result files are written in "result/" directory.

Documents

Please read README files and "program.pdf" in doc/

   .
